

JOB TITLE:	Vice President, Project Controls Executive
AGENCY:	Metropolitan Transportation Authority (MTA) - Construction & Development
DEPT/DIV:	Delivery/Systems
REPORTS TO:	Senior Vice President, Program Executive
WORK LOCATION:	2 Broadway, NY, NY
HOURS OF WORK:	8:30 AM to 5:30 PM or as required (7.5HR/ DAY)
SALARY RANGE:	\$179,987 to \$244,560

About:

MTA Construction & Development (C&D) is responsible for the planning, development, and execution of all capital construction projects across the MTA region. Through centralized oversight and management of the MTA’s \$64 billion Capital Program, C&D ensures the efficient delivery of critical infrastructure projects that support the region’s vast transportation network. As part of the Metropolitan Transportation Authority, the largest transportation network in North America, C&D plays a key role in modernizing and expanding services that support 15.3 million residents across New York City, Long Island, southeastern New York State, and Connecticut. C&D is committed to delivering safe, innovative, and cost-effective capital projects that enhance the customer experience and strengthen the reliability and resilience of the MTA system.

Benefits:

Transportation & Financial Benefits

- Commuting Made Easy – Enjoy a complimentary MTA transportation pass, plus access to tax-advantaged commuter benefits to maximize your savings.
- Premium Health Coverage at Low Cost – Access high-quality individual, family, and domestic partner healthcare, dental, vision, and life insurance plans.
- Secure Your Future – Build long-term financial security through pension plans and retirement savings accounts designed for eligible employees.

Time Off & Work-Life Balance

- Generous Time Away – Recharge with substantial paid time off and comprehensive holiday schedules that support your personal and family commitments.
- Holistic Support Services – Access our dedicated Work Life Services team and Office of the Chaplains unit for personal guidance and support when you need it most.

Professional Growth & Development

- Learning & Development Program – Advance your career through structured professional development opportunities, skills training, and leadership programs tailored to support your growth within the organization.
- Educational Investment – Pursue your career goals with in-house training and professional development, tuition reimbursement support, and partnerships with educational institutions.

Employee Experience & Community

- Employee Assistance Programs – Comprehensive support services to help you navigate life's challenges with confidence and resources.
- Discounts & Perks – Take advantage of MTA employee discount programs offering savings on products and services.
- Connect & Belong – Join our vibrant Employee Resource Groups to build meaningful connections, share experiences, and contribute to an inclusive workplace culture.

Job Summary:

The Vice President of Project Controls has broad authority over the functional group's strategy, governance, and direction. The Incumbent has complete decision-making authority over the functional group within the organization's general policies, principles, and ultimate goals. In addition, the person in this role has the latitude to consider organizational direction. Can fully define policies, practices, standards, and guidelines for the entire Project Controls functional group. The person in this role is a well-respected industry fellow in program/project controls, responsible for all aspects of program control activities for C&D (cost estimating, cost control, scheduling, and risk management) for the entire capital program. Works within the Systems Business Unit within the C&D Delivery department and sets new Project controls, policies, and procedures for all staff.

Responsibilities:

- Responsible for program control activities for the Project's entire lifecycle (planning phase through handover to operating owner).
- Supports a Project Executive and project team:
- Assists the Project Management team in making decisions for escalated items related to cost estimates, schedules, change orders, claims, time extension requests, and disputes.
- Evaluate actual project performance, risk identification/mitigation, and recovery plans on a program level and provide Delivery Office trends/drivers/mitigation strategies.
- Review and identify escalated items related to financial reports using actual cost information, forecasted spending per project schedules, and estimated final costs against approved contract funding.
- Provides insights into overarching reviews for conceptual estimates and durations for projects/programs.
- Establish force account needs for projects.
- Establishes continuing education for all Project control teams' skill development.
- Creates innovative solutions to assist project management/delivery teams in understanding their Project's health, enabling them to make quick decisions.
- Accountable for the leadership and management of the Program Controls function, technical compliance, and continuous improvement.

Education and Experience:

- Bachelor's degree in engineering, Architecture, Construction, or Project Management, Business Administration, Transportation, or a related field.
- Masters preferred.
- Must have a minimum of sixteen (16) years of related experience.
- Must have at least ten (10) years in a management or supervisory role and/or project manager role in a large, multi-faceted organization.
- A Licensed Professional Engineer or Registered Architect is desirable.
- PMI-SP, EVP, CCP, or CPE Certifications are desirable.
- Significant experience in project management for major construction projects or projects with highly complex systems is preferred. Alternative delivery experience is desirable.
- Substantial experience leading and managing contractors, subcontractors, or vendors.
- Excellent communication and interpersonal skills.
- Demonstrated ability to build relationships and work collaboratively with stakeholders at all organizational levels.
- Demonstrated ability to work in a high-profile, high-pressure environment effectively.
- Must have focus and ability to deliver results, organizational effectiveness, and continuous improvement.
- Must be a proven leader as a change agent and creative/innovative thinker with the ability to align business goals with solutions to drive process improvements.
- Must possess excellent team-building, listening, problem-solving, and prioritization skills.
- Alternative Delivery experience preferred.

Other Information:

Pursuant to the New York State Public Officers Law & the MTA Code of Ethics, all employees who hold a policymaking position must file an Annual Statement of Financial Disclosure (FDS) with the NYS Commission on Ethics and Lobbying in Government (the "Commission").

Selection Criteria:

Based on evaluation of education, skills, experience, and interview.

Equal Employment Opportunity:

MTA and its subsidiary and affiliated agencies are Equal Opportunity Employers, including with respect to veteran status and individuals with disabilities.

The MTA encourages qualified applicants from diverse backgrounds, experiences, and abilities, including military service members, to apply.
